The Commercial AV Specialists

Cutting-edge technology

A LITTLE BIT ABOUT US

With a reputation for our quality, reliability and experience we are a well-established business. Made up of an industry leading team of lighting control and Audio Visual system design and installation specialists. Working directly with electricians, lighting designers, M&E consultants and end-users, we offer a leading-edge range of products supported by superb after-sales care, including ongoing maintenance, and system checks.

We are 100% committed to providing the most efficient and cost effective AV solutions in the market place, all of which are highly flexible and can be tailored to suit any type of installation.

Our highly experienced team can assist with every aspect of your AV project from design and consultancy, to specialist rack building, product supply, installation and ongoing maintenance and support.

- Commercial Spaces
- Retail
- Education
- Residential

Hospitality & Leisure

We have vast experience working with some of the UK's hottest hospitality brands. Our expert knowledge in AV, sounds systems and background music management means we can help to create the perfect experience for your guests.

Commercial Spaces

From from conference spaces and meeting rooms, to sound masking for open office spaces, we provide a full, end-to-end service to help improve your meetings and elevate connectivity.

Retail

Few can create the perfect AV set up for any retail business. From showcasing products, to creating ambience through sound, our specialist retail team.

Education

From smart classrooms to performance spaces, we can support schools and colleges to create the perfect learning environment, whatever the brief.

Residential

Having operated at the luxury end of the domestic market for over 15+ years, we have a vast amount of experience in creating cutting edge smart homes, sound systems and home cinema experiences. From large-scale one off developments to luxury apartments and everything in-between, we can create the perfect AV solution for any room and any project.
